SDB HD7-BELT

The SILENT DISCO BOX HD7-BELT is a wireless receiver. It works with all the other Silent Disco Box 3 channel products. This product makis it possible to connect your own headphone through the 3.5mm mini-jack connector. Or you can use it to receive signal and connect this to AV equipment like home audio systems. The receiver has a build-in rechargeable battery and can be used up to 10 hours between charges. It takes only 3 hours to fully charge. The logo changes color when you change the channel. The product is very lightweight and the belt bucket makes it easy to wear.

Quick Start

- 1. Press and hold the power on/off button for two seconds to turn the receiver on.
- 2. Slide the channel button to choose the channel of the transmitter.
- 3. Plug your earphones in through the headphone output.
- 4. Adjust the volume.
- 5. Press and hold the power on/off button for two seconds to turn the receiver off until the LED light of the logo display is off.
